HOW TO LOAD YOUR BIKE (Spring - Fall)

- Step 1: Remove any loose items (pumps, water bottles, locks) or valuables from your bike while you wait for the bus.
- Step 2: A quick wave to and eye contact with the bus driver before you step in front of the vehicle will let them know you intend to load your bike.
- Step 3: If the bus arrives with the bike rack folded against the bus, squeeze the release handle on the top of the rack and pull toward you to lower it.
- Step 4: If only one bike is being loaded, put it in the position furthest from the front of the bus. Face your bike so that the front tire is facing the locking arm. (The rack is labeled for your convenience). Lift your bike onto the rack. If a bike is already in the front rack, load your bike in the back space closest to the front of the bus, facing the opposite direction.
- Step 5: With your bike's wheels in the wheel wells, pull the spring-loaded locking arm out and over your front tire as close to the frame as possible. Make sure it is placed on your tire and not on the fender frame.
- Step 6: Board the bus and pay your fare.
- Step 7: Get off the bus and tell the bus driver you are unloading your bike. Lower the spring-loaded bar from the tire and lift the bike off the rack. Fold up the rack if it is empty.
- Step 8: Move away from the bus toward the curb and let the bus driver know it is safe to leave.
